

## **MASTER OF SPEECH-LANGUAGE PATHOLOGY ADDITIONAL COSTS**

At St. Ambrose, we realize a graduate education is a personal, professional, and financial commitment. That is one reason we "freeze" the tuition rate when you enter the MSLP program. The One Price Tuition Plan ensures your tuition costs are consistent across semesters, making financial planning easier.

For the cohort of students entering the MSLP Program in Fall 2026, the total tuition cost of the two year program is \$74,170. It includes tuition, course fees, liability insurance, technology fees, matriculation fee, and graduation application fees. You may encounter additional costs, which we've outlined below.

While the cost may seem daunting, graduate financial aid, assistantships, and scholarships are available to make your degree more affordable.

Give us a call or [send an email](#) and we'll answer anything else you might want to know.
